

Empathy Map

Date	26 June 2026
Team ID	xxxxxx
Project Name	Emotion Detection & Learning Support Engine
Maximum Marks	4 Marks

Empathy Map Canvas:

The **Empathy Map Canvas** for the **Emotion Detection & Learning Support Engine** helps understand the needs, thoughts, actions, and feelings of students while learning. Students want to study effectively, improve their performance, and stay motivated. However, they often experience stress, confusion, frustration, or low confidence, which affects their concentration and learning. They search for study materials, use online learning platforms, and look for guidance to overcome these challenges. By understanding these behaviors and emotions, the system can detect students' emotional state from text and provide personalized learning resources, motivational tips, and study guidance, making the learning experience more engaging, supportive, and effective.

Empathy Map for Emotion Detection & Learning Support Engine:

The empathy map for the **Emotion Detection & Learning Support Engine** focuses on understanding the experiences and emotions of students during their learning process. Students want to learn effectively, stay motivated, and perform well in their studies. However, they may experience stress, confusion, frustration, or lack of motivation, which affects their concentration and academic performance. They use online learning platforms, search for study materials, and seek guidance to overcome learning challenges. Understanding these needs, behaviors, and emotions helps in developing an intelligent system that detects students' emotions and provides personalized learning resources, motivational tips, and study support, creating a better and more engaging learning experience.
